Gen. Darbn W. von Scheffer-Boyadel U. S. HARVESTS WORLD **RECORD WHEAT CROP**

GREATEST VIELD ONE COUNTRY HAS EVER MADE-MAY REACH BILLION BUSHELS ACCORDING TO AUGUST ESTIMATE MADE BY DEPARTMENT OF AGRICULTURE.

Washington.-American farmers are harvesting the greatest wheat crop ever grown in any one country. It may reach a billion bushels. Department of Agriculture experts estimated the crop at 966,000,000 bushels, basing their calculation on the condition of the Aug. 1 crop. Bumper harvests of other cereals and food crops are indicated.

The size of the country's important farm crops, forecast from their condition Aug. 1 by the crop reporting board, is given below with the production estimates forecast from the July condition and the finant harvest figures of last year's crops. Comparison of the July and August forecasts shows the change in bushels of the harvest prospects as affected by weather and other conditions during the month:

August	Forecast July Forecast	1914 Crop.
Vinter wheat 659	000,000 668,000,000	685,000,000
	,000,000 295,000,000	206,000,000

GETS 2-CENT MONEY

Two-Cent Balance is Paid Through Express Company by Kansse Woman.

The smallest money order ever made out by the agent for the local express company was given to a woman to pay on an account owed to a mail-order house, according to a Blackwell story printed in the Ardmoreite. The an had received a letter from the mailorder house notifying her that she owed the firm two cents. Indignant and unable to realize the spirit that would prompt anyone to mail a bill for two cents, the woman decided that a post office stamp would not suffice

and that only a money order would do. The fee for the order was three cents and the postage stamp necessary to carry it cost two cents more, so that with the two-cent postage stamp that carried the bill to the woman seven cents was expended in collecting a two-cent debt.-Kansas City Journal.
